Charlotte Correctional Institution is an adult male facility. Policy states they do not conduct cross-gender strip searches or cross-gender visual body cavity searches except in exigent circumstances; and shall document all cross-gender strip searches and cross-gender visual body cavity searches. The Department has established procedures to provide inmates with limited English proficiency equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment. The Department shall ensure that written materials are provided in formats or through methods that ensure effective communication with inmates with disabilities, including inmates who have intellectual disabilities, limited reading skills, or who are blind or have low vision. The auditor interviewed two limited English proficient inmates utilizing the Language Line. They indicated that staff has provided them information on PREA reporting. The auditor verified a staff translator list was available. The Department has a contract with Language Line for all languages. The language line is available for use by staff when a staff translator is not available. There are posters in English and Spanish posted in the common areas of the inmate living areas. Policy prohibits the use of inmate interpreters except in emergency situations or the inmate's safety would be compromised. Staff and inmate interviews all supported that inmates would not be relied on as translators. A inmate translator was not used in a PREA allegation during the previous twelve months.

The MOSS Group special training curriculum for Inspectors was reviewed and found to cover all requirements. The training included techniques for interviewing sexual abuse victims, proper use of Miranda and Garrity warnings, sexual abuse evidence collection in confinement settings, and the criteria and evidence required to substantiate a case for administrative action or prosecution referral. The interview of the inspector demonstrated she understood the how to conduct a sexual abuse investigation in a confinement setting and what her role was. The Department has an aggressive initiative to reduce in-cell violence between inmates. The focal point of this initiative is to ensure inmates considered predators or potential predators are housed appropriately. Inmates that can be considered a danger to others should not be housed in cells with inmates who can be considered potential victims. To that end, a major system identifies these types of inmates as well as inmates that may be sexual aggressors or victims. The system is IBAS (Inmate Behavioral Assessment Scale). The Department utilizes a complex web system designed by the Bureau of Classification Management to identify potential inmate predators, prey and those inmates at risk for sexual violence either as an aggressor or as a victim. This is a multi-tiered system that performs a variety of significant functions including ensuring appropriate housing of identified and potential predators and sexual aggressors. Criteria to include past violent convictions, violent disciplinary reports, STG affiliation, release dates, as well height and weight differentials are considered when housing inmates. The housing officer must review and approve any bed changes made.

There were 1284 inmates entering the facility whose length of stay in the facility was for 72 hours or more who were screened for risk of sexual victimization or risk of sexually abusing other inmates within 72 hours of their entry into the facility. There were 52 reassessments completed during the previous twelve months.

The auditor interviewed members of the security staff and classification staff to question them on how the IBAS system is used to determine work/housing and education assignments. Each explained how it was used in detail considering victimization among other things. The placement of transgendered and/or intersex inmates is done only after a Medical Review Committee has reviewed the case. Transgender/Intersex inmates receive a face-to-face review within fourteen days of arrival and anytime in which their program assignment, work assignment, discipline record as well as their views with respect to their safety is questioned. Additionally, inmates who are identified as at high risk for perpetration or victimization are monitored through the IBAS system, to ensure inmates are not assigned to work, housing or education assignments in a manner that might increase their propensity for abuse. There is no transgender/intersex inmates assigned to Charlotte Correctional Institution. Staff interviewed acknowledged transgender/intersex inmates would be given an opportunity to shower separately.

The administrative segregation unit is housed in segregation housing unit. Policy states inmates at high risk for sexual victimization shall not be placed in involuntary segregated housing unless an assessment of all available alternatives has been made, and a determination has been made that there is no available means of separation from likely abusers. Policy states inmates placed in this status shall be reviewed every seven days for the first sixty days and 30 days thereafter. Review shows there were no inmates placed in protective status during the intake process.

Department of Corrections provides multiple ways for inmates to report sexual abuse, sexual harassment, and retaliation by other inmates or staff for reporting sexual abuse and sexual harassment to include anonymously upon request. Inmates can call the Department hotline. Inmates can also report to staff verbally or in writing. Departmental website provides for third party reporting. Interviews of inmates, staff and review of policies, inmate handbooks and information posted next to the inmate phones in the housing areas verified the inmates have multiple internal ways to report incidents of abuse or harassment. During the tour the phones were tested. Examples of inmate reporting through different means were reviewed when investigative cases were reviewed. Staff accepts reports made verbally, in writing, anonymously, and from third parties, and are promptly documented by incident report. Staff training covers the ways for staff to report sexual abuse and sexual harassment of inmates. During interviews some staff knew they could report sexual abuse and harassment of inmates to the Inspector General via the hotline. Posters and other documents on display throughout the facility also explain the reporting procedures. The PREA pamphlet and the inmate handbook address this standard. Department of Corrections does not house inmates solely for civil immigration.

Inmates may file a grievance; however, all allegations of abuse or harassment, when received by staff, would immediately result in the opening of a formal investigation (criminal or administrative). This process would not involve staff who may be the subject of the complaint. FAC 33-103.006 states "If the inmate or third party is filing a grievance involving sexual abuse, it shall be clearly stated in the first line of the grievance that it is a grievance related to sexual abuse. Also on Form DC1-303 the third party filer shall check the box next to Third Party Grievance Alleging Sexual Abuse. If this statement is not included in the grievance and if the third party box is not checked, the grievance shall be responded to. This will not be a reason to return the grievance without action to the filer". There were no grievances involving PREA related issues filed during the previous year.

The facility provides inmates with access to outside victim advocates for emotional support services related to sexual abuse with a memorandum of understanding with Center for Abuse and Rape Emergencies of Charlotte County, Inc. Inmates are provided mailing addresses and telephone numbers. Facility is an adult prison and does not house individuals detained solely for civil immigration purposes. Inmates are provided reasonable communication between inmates and these organizations in as confidential a manner as possible. The Institution informs inmates, prior to giving them access to outside support services, the extent to which such communications will be monitored. The institution informs inmates, prior to giving them access to outside support services, of the mandatory reporting rules governing privacy, confidentiality, and/or privilege that apply to disclosures of sexual abuse made to outside victim advocates, including any limits to confidentiality.

The Department has third party reporting of sexual abuse or sexual harassment through the public website via third party grievances and the citizens complaint form. Inmate and staff acknowledged both during interviews. The third party grievance form is available online at www.dc.state.fl.us/oth/inmates/prea-grievances.html. The citizens complaint form can be found at http://www.dc.state.fl.us/apps/igcomplaint.asp. Information is also posted near the telephones that provide the inmates a telephone number to make third party reports, along with numbers to tell family and friends to make third party reports. Interview of inmates demonstrated they knew how third party reporting could be accomplished. Family members or other individuals may report verbally or in writing any time they have knowledge or suspect an offender has been sexually abused, sexually harassed or requires protection. Offenders interviewed were aware of this method of reporting.

Department policies require all staff to report immediately any knowledge, suspicion, or information regarding an incident of sexual abuse or harassment; and for staff not to reveal any information related to a sexual abuse report to anyone other than extent necessary. The facility reports all allegations of sexual abuse and sexual harassment, including third party and anonymous reports, to the Inspector General via the MINS reporting system. Review of investigative files; and interviews of staff and inmates verified staff immediately report any knowledge, suspicion, or information regarding an incident of sexual abuse or harassment; and that staff does not reveal information related to a sexual abuse report other than to people authorize to discuss the report. Random interviews with staff revealed that staff is very aware of their responsibilities to report incidents of sexual abuse or harassment and know not to reveal any information about a sexual abuse incident to anyone other than to the extent necessary.

Departmental policy requires staff to take immediate action to protect any inmate they learn is subject to substantial risk. Interviews with staff demonstrate they know the steps to take to protect an inmate subject to risk of imminent sexual abuse. Security staff immediately employs protection measures as the information is passed to the Shift Supervisor, Chief of Security and Warden. In the past twelve months, 52 times the inmate was removed from population so the facility could determine that an inmate was subject to substantial risk of imminent sexual abuse. The facility made the determinations less than one hour of learning of the threat.

Interviews of the Warden, Deputy Warden and PREA Compliance manager demonstrated they knew the procedures to follow. There were two alleged incidents at other institutions reported during the intake process to staff. Documentation provided the warden notified the previous facility warden.

Procedure clearly specifies procedures to respond to an allegation of sexual abuse for both security and non-security staff. Random interviews with staff confirm both security and non-security staff knew what to do upon learning an inmate was sexually abused to include separating the alleged victim and abuser; how to preserve the crime scene; and what actions inmates should not take in order not to destroy physical evidence including, as appropriate, not washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking, or eating;. Staff was very cognizant about ensuring safety and well-being of an alleged victim while insuring that physical evidence is not destroyed or contaminated. Review of investigative files further demonstrated security and non-security staff knew what to do as the first responder to a sexual assault. Training records and staff interviews confirm the staff is trained as first responders. In the past twelve months there were 29 allegations of sexually abuse. In each case the staff member receiving the allegation separated the alleged victim and abuser. No case was within the time period that allowed for collection of physical evidence.

Departmental procedure describes the policy and practice to be followed to ensure that there is no retaliation against any inmate or staff member who reported sexual abuse or sexual harassment. The Assistant Warden of Programs is the staff member charged to ensure compliance to this policy. Classification staff monitors the conduct or treatment of inmates who reported sexual abuse and who were reported to have suffered sexual abuse to see if there are any changes that may suggest possible retaliation by inmates or staff. Classification staff receives an appointment (IM05) to interview the inmate every 30 days. They conduct periodic checks up to 90 days but beyond if the Assistant Warden of Programs feels the situation requires it. With inmate retaliation the Classification staff looks at inmate disciplinary reports, housing, and or program status changes. The Assistant Warden of Programs monitors staff by reviewing performance reviews or reassignments and shift changes.

The Department has a policy prohibiting the placement of inmates who allege to have suffered sexual abuse in involuntary segregated housing unless an assessment of all available alternatives has been made and a determination has been made that there is no available alternative means of separation from likely abusers. Records and documentation of inmates placed in segregated housing who alleged to have suffered sexual abuse were reviewed.

The auditor reviewed completed investigative files at Charlotte Correctional Institution. In each case file was written notice of notification where the inmate was informed of the outcome of the investigations whether it had been determined to be substantiated, unsubstantiated, or unfounded. If there were any substantiated allegations of sexual abuse by a staff member, the inmate would be informed in writing to include whenever: the staff member is no longer posted within the inmate's unit; the staff member is no longer employed at the facility; the department learns that the staff member has been indicted on a charge related to sexual abuse within the facility; or the agency learns that the staff member has been convicted on a charge related to sexual abuse within the facility. If the inmate was alleged to have been sexually abused by another inmate, the Inspector informs the alleged victim whenever: the alleged abuser has been indicted on a charge related to sexual abuse within the facility.

Staff is subject to disciplinary sanctions up to and including termination for violating sexual abuse or sexual harassment policies. Termination is the presumptive disciplinary sanction for staff who has engaged in sexual abuse. Disciplinary sanctions for violations of policies relating to sexual abuse or sexual harassment (other than actually engaging in sexual abuse) are commensurate with the nature and circumstances of the acts committed, the staff member's disciplinary history, and the sanctions imposed for comparable offenses by other staff with similar histories. All terminations for violations of agency sexual abuse or sexual harassment policies, or resignations by staff who would have been terminated if not for their resignation, are reported to law enforcement agencies, unless the activity was clearly not criminal, and to any relevant licensing bodies. There were eleven allegations of Staff Sexual Misconduct and four allegations of Staff Sexual Harassment were reported during the previous twelve months. Staff Misconduct cases are open. One Staff Sexual Harassment is closed as unfounded.

The employee code of conduct policy but applies to contractors and volunteers. It requires contractors or volunteers who engaged in sexual abuse be reported to law enforcement agencies, unless the activity was clearly not criminal, and to relevant licensing bodies. The Warden reported that have been no allegations of sexual abuse by contractors or volunteers. Interviews with contractors and volunteers confirmed they were aware of the zero tolerance policy for engaging in sexual abuse or sexual harassment of inmates or staff. There have been no issues with any contractors or volunteers at Charlotte Correctional Institution.

Inmate handbook states "There is no such thing as legal consensual sex in prison. The Department of Corrections policy and the law prohibit sexual behavior between inmates". Disciplinary policy stipulates that inmate-on-inmate sexual activity (not forced) will result in a disciplinary report be written for violation of 9-7 Sex acts or 9-18 unauthorized physical contact involving inmates. This report results in a disciplinary hearing being held on the inmate within the facility. Inmates perpetrators are disciplined and/or reviewed for close management if the OIG determines a sexual abuse case is substantiated. For the purpose of disciplinary action, a report of sexual abuse made in good faith based upon a reasonable belief that the alleged conduct occurred shall not constitute falsely reporting an incident or lying, even if an investigation does not establish evidence sufficient to substantiate the allegation.

Procedure requires that any inmate reporting any prior victimization or indicating sexual abuse be seen no longer than fourteen days after arrival. Any inmate received at and makes any reference to victimization and perpetrated sexual abuse is seen by medical/ mental health usually right after intake interview or the next day. There were sixteen that reported prior victimization during the intake process. In the past twelve months, there were five inmates who have previously perpetrated sexual abuse, as indicated during the screening, who were offered a follow up meeting with a mental health practitioner. Medical and Mental Health staff get informed consent before reporting prior sex victimization, which took place not in an institutional setting. Mental health staff maintains DC forms and logs documenting compliance with Health Service Procedures. The information shared with other staff is strictly limited to informing security and management, including treatment plans, housing, bed, work, education, and program assignments, or as otherwise required Departmental Procedure. Medical records were reviewed showing the prior victimization inmates were seen by mental health staff with the time frames.

Procedure 602.053 requires all inmates be offered medical and mental health evaluations to those who were sexually abused in any prison, jail or juvenile facility including follow up services. Inmate victims of sexual abuse while incarcerated are offered tests for sexually transmitted infections as medically appropriate. Charlotte Correctional Institution through Wexford Medical Services offers mental health services to all known inmate abusers, if appropriate. The facility also offers mental health service to all known inmate victims as well. Treatment services are provided to the victim without financial cost. This practice was confirmed by interviews with staff and inmates; and medical and mental health documentation demonstrates there is on-going medical and mental health care for sexual abuse victims and abusers. Medical and mental health conducts follow-up care for sexual abuse incidents. There were sixteen reporting sexual abuse during the intake process all were referred to mental health for treatment. Medical records and logs that demonstrates victims receive, as appropriate, follow up services, treatment plans, and, when necessary, referrals for continued care following their transfer to, or placement in, other facilities, or their release from custody. The incident review team is made up of the Assistant Warden of Programs, Chief of Security and the Classification Supervisor. The review team gets input from line supervisors, Inspectors, and medical or mental health practitioners. There were no incident reviews completed during the previous twelve months. The incident review is used in determining causes and better policies and practices to better prevent, detect, or respond to sexual abuse. The Department has a PREA after action review form that addresses all elements of the standard. Incident review team members were interviewed and were knowledgeable of the process. The facility may include Central Office staff in the discussion during the incident review.

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The Department of Corrections provided documents demonstrating data was being collected, aggregated and maintained. The Department maintains reviews and collects data as needed from all available incident-based documents, including reports, investigation files, and sexual abuse incident reviews. Data is collected from a number of sources, but main source is Management Information Notification System (MINS). The MINS system includes, at a minimum, the data necessary to answer all questions from the most recent version of the Survey of Sexual Violence (SSV) conducted by the Department of Justice. The PREA Coordinator has access to information in MINS and gets other information upon requests to OIG. The information is aggregated for all to be placed in Annual Report. The report was completed and provided to DOJ September 2015.

The Department of Corrections reviews data collected to assess and improve the effectiveness of its sexual abuse prevention, detection, and response policies, practices, and training, including identifying problem areas; taking corrective action on an ongoing basis; and preparing an annual report of its findings and corrective actions for each facility, as well as the Reception and Medical Center as a whole. Such reports includes a comparison of the current year's data and corrective actions with those from prior years and provide an assessment of the Reception and Medical Center's progress in addressing sexual abuse.

Departmental policy requires that aggregated sexual abuse data from facilities under its direct control and private facilities with which it contracts be made readily available to the public at least annually through its website. Before making aggregated sexual abuse data publicly available, the Department removes all personal identifiers. The Department maintains sexual abuse data for at least ten years. Up to date survey information is submitted and verified by the PREA Coordinator. In addition to keeping the paper documents according to retention schedule a retention folder is located on the computer at cos201\PREA Retention.
